Complaints and objections mechanism

**As approved by the Steering Committee decision no. 81702/2023*

1. For complaints related to academic issues, students may address their concerns to the lecturers. Additionally, students may contact the Academic Advisor of the Department of International Studies, who was appointed by the Faculty Assembly (meeting of 26.4.2023) and can propose solutions to issues related to the quality of the services provided by the LL.M. (academic, educational, administrative).
2. If the proposed solution does not meet the student's expectations, they may submit a “complaints and objections form” (attached) to the Director and the LL.M.’s Steering Committee via the Secretariat. If the decision is still not acceptable to the student, they may submit a request for reconsideration to the Faculty Assembly.
3. In accordance with data protection legislation, the LL.M. archives and manages the information concerning the personal data of students (contact details, register of grades and other personal data).
